

Eric Wang

Sr. Vice President of Product and Engineering | 25+ Years Enterprise Tech Leadership

LinkedIn: [linkedin.com/in/ewang](https://www.linkedin.com/in/ewang)

PROFESSIONAL SUMMARY

Technical Executive with 25+ years of strategic experience in Engineering, Cloud Operations, Product Management, and IT Leadership. Proven track record of delivering enterprise-scale solutions with 99.999% availability, leading cross-functional teams, and driving compliance certifications (TS Clearance, ISO 27001, HIPAA HITRUST CSF, SOC 1/2, PCI, IL5, NIAP). Expert in cloud platforms (AWS, Azure, GCP), DevOps/CI-CD, security frameworks, microservices architecture, and organizational transformation.

CORE COMPETENCIES

Cloud & Infrastructure

AWS, Azure, GCP, Kubernetes, Microservices, CI/CD, Docker, Terraform, Infrastructure as Code

Leadership & Process

Team Building, Agile/Scrum, Kanban, ITIL, Organizational Transformation, Budget Management

Security & Compliance

ISO 27001, HIPAA/HITRUST CSF, SOC 1&2, PCI, IL5, NIAP, Palo Alto, Cisco, penetration testing

Enterprise Tools

Atlassian Suite, Salesforce, GitHub, Jenkins, Splunk, DataDog, Tableau, Office 365

CERTIFICATIONS & CLEARANCES

- | | |
|---------------------------------|----------------------|
| ✓ Top Secret Security Clearance | ✓ ITIL Certified |
| ✓ ISO 27001 Certified | ✓ IL5 Accreditation |
| ✓ HIPAA/HITRUST CSF Certified | ✓ NIAP Certification |
| ✓ SOC 2 Type 1 and 2 | |

PROFESSIONAL EXPERIENCE

Sr. Vice President of Product and Engineering

Hypori

2020 – Present

Led Product, Engineering, and CloudOps teams through major cloud infrastructure transformation. Directed platform migration and optimization across AWS and Azure. Transformed scrum organization from reporting-based teams (siloes by function with resource bottlenecks) to feature-based cross-functional teams with diverse skillsets, enabling end-to-end feature delivery from requirement through production.

Architected control plane refactor using microservices and Kubernetes on AWS Landing Zone Accelerator (LZA) as the foundational multi-account architecture, ensuring governance, security, and compliance at scale. Extracted and modernized data plane with cloud native based virtual workspace.

Led shift-left initiatives integrating functional, regression, and security testing plus observability practices at the beginning of SDLC, with continuous improvement in team maturity and engineering practices. Collaborated with security team to achieve SOC2 Type 2 and IL5 accreditation, and NIAP certification for Hypori Android and iOS clients.

Senior Vice President of Cloud Operations

Serenova

2019 – 2020

Led cloud operations team for CCaaS platforms achieving 8+ months of 100% uptime across AWS and data centers. Built and managed 8 departments (Cloud Ops, DevOps, Systems, Database, Network, Voice/Telephony, InfoSec, IT, Facilities). Introduced Technology Roadmap coordination process and led PCI and SOC 2 Type 1 & 2 certifications.

Vice President of Information Security and Technology Services

AllClear ID

2015 – 2018

Led ISO 27001 and HIPAA HITRUST CSF certifications within one year across the entire organization. Managed budget for InfoSec, IT, TechOps, DevOps, and Facilities teams. Overhauled network infrastructure with firewall replacement, led phone system cloud migration, developed comprehensive Business Continuity Program, and directed penetration testing initiatives.

Sr. Director of Development Operations

Kinnser (WellSky)

2013 – 2015

Introduced AWS cloud technology and built HIPAA-compliant disaster recovery environment. Completed SSAE 16 (SOC 1) Type 1 certification and improved application uptime from 99% to 99.95%. Managed technology operations team and led acquisition due diligence and integration processes.

Vice President of Site Operations

Affiniscape (Community Brands)

2011 – 2013

Managed production operations across multiple data centers maintaining 99.9% uptime. Led conversion from Waterfall to Agile/Scrum development process and migrated physical infrastructure to VMware virtualization. Designed virtual call center solution and implemented Microsoft CRM with data centralization from multiple systems.

Sr. Director of Production Operations

Conformity (Gemalto)

2009 – 2011

Architected and managed AWS production environment (EC2, EBS, VPC, S3, MySQL replication). Introduced SAS 70 (SOC 1) audit process and achieved certification. Led Google Apps and Active Directory integration and designed Salesforce AppExchange certification and implementation.

Sr. Director of Site Operations and Technical Support

QuickArrow (NetSuite/Oracle)

2003 – 2009

Led security team to achieve SAS 70 Type 2 certification for 4 consecutive years with zero exceptions while maintaining 99.9% uptime over 5+ years. Led network redesign with CISCO PIX firewall and IDS/IPS implementation. Architected multi-tier web infrastructure and developed automated production deployment system.

Web Operations Manager

Works (Bank of America)

1998 – 2003

Achieved exceptional 99.9998% uptime for production web site with multi-tier architecture and load balancing. Led SAS 70 Type 1 & 2 certifications with zero high severity issues. Designed Business Continuity and Disaster Recovery procedures with <24 hour failover capability and led data warehouse architecture.

Senior QA Engineer / Developer

Smart Technology (I2 Technologies)

1996 – 1998

Designed test environments and implemented comprehensive testing frameworks via SILK automation. Developed dynamic HTML pages, Java COM components, and Powerbuilder applications. Created stored procedures and SQL queries for Oracle database operations.

EDUCATION

Bachelor of Science – Computer Science

University of Texas at Austin | 1994-1998
